

DHI-ICS-ME-Cable-22KW

Intelligent EV Charger Accessories

Ordering Information		
Type	Model	Description
Intelligent EV Charger Accessories	DHI-ICS-ME-Cable-22KW	Intelligent EV Charger Accessories

Series Overview

D-Volt Pro is a revolutionary EV charging solution specifically designed for commercial use. It offers robust performance and is fully compatible with our specialized software management system, the D-Volt cloud and app, which enhances charging efficiency.

Technical Specification

Electrical

Rated Voltage	480V AC
Rated current	32A
Working temperature	-30°C to +50°C
Insulation resistance	≥500MΩ at room temperature Comply with IEC 62196 under hot and humidconditions
Withstand voltage	Between L.N and PE, 2000V AC,Test 60S, leakagecurrent < 5mA
protection class	IP55
Casing fireproofness	UL94V-0
Mechanical life	≥ 10000 times of unloadedplug in/ off
Plug in/off force	< 100N
Charging gun plug material	PC/PA66+GF30%
Conductor material	copper alloy, surface silver plated
Certifications	EN50620/IEC 62893
